When you log in, you will see “channels” on the left-hand panel If you click into one of the channels, you will see they operate as a relatively typical messaging system.. You will therefore need an internet connection to use it While Slack can be daunting when you first join, its core service is very simple.. Gone are the days of reading an entire email just to realize you had been unnecessarily “CC’d”.. If, for some reason, the error keeps occurring, you can always try to run Slack from inside your browser or uninstall it again and download it from the official site rather than from the App Store.
