 The graphics are a slight form of salvation, as they're nowhere near the modern realistic standard you know and love.. You probably won't have time to appreciate the beauty of these halls, only glimpsing them in a passing moment.. In the dark and afraidSCP-173 has escaped its containment and is loose within the building.. An accident occurs, and now it has escaped You're left in the dark and must avoid becoming its prey. It's time to survive An attempt to recreate SCP: Containment Breach using Unreal Engine 4.. It's for these reasons that the game gets marketed towards an older audience You'll find no cute or cuddly creatures here.. But you're venturing into the containment unit of SCP-173, a deadly sculpture-like creature that can only move when not in a direct line of sight.. SCP - Containment Breach is a free survival horror game based on the creepypasta stories of The SCP Foundation.. This Mac download was scanned by our built-in antivirus and was rated as virus free.. Only darkness and fear will surround you until you are forced to quit the game There is no ending to save you from the monster, only an eternity within these halls.. As you enter the containment chamber for testing, the power systems fail, and you are left alone against an enemy with no physical weapons.. I plan on recreating the base game and add my own stuff such as updated/improved models and textures and new scp's later on, while keeping the original Artstyle of the game. 0041d406d9 [تحميل ادوبي فلاش بلاير لجوجل كروم جوجل](#)
